Axel S. **Feldmann**

PHD STUDENT IN COMPUTER ARCHITECTURE

(+1) 917 691-5910 | ✉ axelf@csail.mit.edu | ⌂ feldmann.nyc

Academic/Research

Massachusetts Institute of Technology – CSAIL   *Cambridge, MA*

PHD IN COMPUTER SCIENCE – COMPUTER ARCHITECTURE   *2019-*

- **Advisor:** Prof. Daniel Sanchez
- Working on *F1*, a flexible hardware accelerator for Fully Homomorphic Encryption (FHE)
    Worked on designing the system architecture
    Developed scheduling algorithms for mapping FHE computations onto *F1*'s hardware
    Evaluated *F1* on a variety of benchmarks showing gmean $5,400\times$ speedups over CPU-based FHE implementations
- GPA 5.0/5.0

Carnegie Mellon University - School of Computer Science   *Pittsburgh, PA*

B.SC. IN COMPUTER SCIENCE   *2015-2019*

- Research: worked on *Livia*, a system architecture for data centric computing throughout the memory hierarchy
    Worked in Prof. Nathan Beckmann's group
    Developed `zsim` based simulation infrastructure to evaluate our proposed architecture
    Designed *Livia*'s hardware-software interface
- Served as a teaching assistant for Operating Systems (15-410) and Introduction to Computer Systems (15-213)
- GPA 3.9/4.00

Industry Experience

NVIDIA   *Santa Clara, PA*

SOFTWARE ENGINEERING INTERN   *Summer 2018*

- Worked on improving kernel display drivers for Tegra SoCs
- Optimized the drivers for new SoC architectures
- Reduced kernel test time by 30% via improved thread synchronization

Yahoo – Flurry Analytics   *Sunnyvale, CA*

SOFTWARE ENGINEERING INTERN   *Summer 2017*

- Created webapp to help users design metrics API queries
- Re-engineered User Acquisition Analysis (UAA) features on the Flurry data platform
